January/February 2026

Dear Friends,

Happy New Year, and I'm thanking God for another year to serve Him! We've been so blessed this ~~past~~ year. God has been good beyond what we deserve!

We were privileged to visit many churches in this area to tell them about Fellowship Tract League and the printing of millions of Gospel tracts sent all over the world. We are thankful for all the churches and individuals that partner with us in the giving, as well as the distribution of the tracts. It is truly a League, because one small church could not carry out such a great ministry alone!

I have been battling a UTI since the first of the year. I hadn't been feeling well, and thought maybe because of a busy December, but on January 3rd, I got too weak to walk, and had shaking that wouldn't stop, so a trip to the ER. I was given an antibiotic, and sent home. I just did not seem to be feeling any better, and then 10 days later started with severe pain in my abdomen. Back to ER and this time admitted to hospital for IV meds, since the infection was back with a vengeance. Home after 4 days with 10 days of another med. Two weeks later another trip to ER and another round of meds.

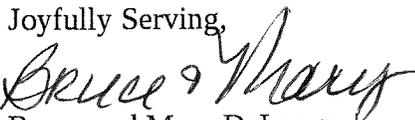

I've had to cancel the meetings for January and February, and will try to reschedule soon. Next weekend we are scheduled for a missions conference in Corpus Christi, and I'm finally feeling like I have enough energy to go.

I have been able to keep up the radio broadcasts. So although I have not been able to preach in churches, I have had the privilege of preaching on the radio.

We had the blessing of having some of our boys visit us at different weeks during the month of December. It sure made for a wonderful month, since we don't see them very much. All are busy with work and families, and it is hard for them to get away. We do love being near our daughter and son in love, and they are a wonderful help!

Thank you for keeping us in your prayers. We treasure the fact that you hold us up before the throne of God. And thank you for giving. May God bless you ten fold!

Joyfully Serving,

Bruce and Mary DeLange
