Withall praying also for us, that God would open unto us a door of utterance... Colossians 4:3

Hello to all from the beautiful Yucatán Peninsula,

It's a privilege to write you and give you some updated information about the work here in Yucatán.

The weather is now starting to get really hot, and it will still get worse as the summer approaches. Thank God for air conditioning.

We have a main prayer request about some permissions we're trying to navigate through City Planning. Anyone who has ever dealt with a building program will understand that most of the time City Hall is not our friend, but nonetheless, we press forward. When we submitted our plans to build a 2<sup>nd</sup> floor, a lot changed for us. The initial construction pretty much went unnoticed and without any problems. Not so the 2<sup>nd</sup> floor. We have had to arrange for a load bearing test, structural analysis and hire what is called a "calculista" or a load bearing expert. So the process here is relatively slow. We have the funds we received last year, but we are in a holding pattern until we get things resolved. Please pray we will find favor and that we will get some good news from the city.

On another front, we are just really excited about some position the Lord has placed us in to be a help to others and to see many saved. We are working in the rural villages that surround our city. There are well over 500 small rural villages that dot the countryside in the state of Yucatán. Most have no gospel preaching church. So we have been going out twice a month to evangelize in these villages, or "pueblos" as we call them. We've seen the hand of the Lord work in a mighty way. This month we visited a small tiny village of about 250 people called San Juan Hilil, and another of about 1000 people called Uci. In both places we saw several saved and a genuine interest. A week later I was able to meet a pastor not far from Uci who went with me to the first rural village and we did some follow up, where he was able to establish 2 discipleship classes in 2 different homes. Pray for pastor Javier and for God to give him the increase as he desires to establish a mission work in this area.

We distributed 63 Bibles there and were able to give pastor Javier a case of Bibles. What a blessing to see the word of God have free course.

The home church here in Mérida keeps growing, we have visitors every Sunday and we're planning some good activities for the park that is in front of our church building.

We started a 2<sup>nd</sup> mission church in a small community called San Antonio Chun where we meet on Thursdays. So that makes 3 church plants in our work here, and maybe the Lord will give us the privilege of starting some more.

Thank you for your continued prayers and faithful giving to keep us on the field. May God give all of you the increase.
